<b>Total Points</b> (out of 25) →	25		
<b>Mechanics</b> Student work merits attention to detail while displaying five dating profiles from the World Wars. Product displays clear language and proper titling.			

Weight: x 2

**I really enjoyed your creativity throughout your profiles... “show off my uranium”, “a tank would be a tortoise in another life”, the accuracy on Davis Jr.’s profile, “carried to your place of exposure” for war bonds...all of it worked nicely and effectively. Your setup and titling is spot on. These are profiles I will show in the future! Great job Amani!**
